

**When you need slimline sanitaryware you need a macerator pump to match. Sanislim® needs just 145mm depth behind the WC and, with an inlet either side, it can take waste from a WC, a shower, wash basin if required.**

## Why choose this product?

- Designed to fit behind the latest slimline styles of WC
- Deals with all waste from a small bathroom
- Inlets either side of unit

## Vertical/horizontal performance

Only 145mm depth required behind the WC. Clearance of 320mm is required from floor level to the underside of a close coupled suite to accommodate the discharge elbow.
